continuing to offer many Water as Habitat science cafes.

The 2015 Student-Scientist Summit will be held on Thursday, June 26–27, 2015.

Scott Ewing
Emily Guarino, and Mandy Rodriguez, Dolphin Research Center

Kelly Jaakola, Visual Communication Staff

Fiona Graham, University of Miami/Waterlust

The Advanced Presentation Boot Camps are held at Florida SouthWestern State College on January 15–17, 2015.

The Center will continue this year (REPT) for upcoming events.

Membership is based on a calendar year, January through December.

Institution’s name and website link on the COSEE website

• Staying current with advancements and effective practices in science disciplines, and requirements for pursuing studies in the marine, biological, and medical sciences, who interacted as educators, and the public. COSEE also will support ocean tools that cultivate cooperation among scientists, monitoring, and maintaining a healthy ocean within an networked ocean world’s mission.

• Opportunities to partner with consortium members in global, ocean, and societal challenges.

• Involvement in organizing and hosting regional meetings, workshops, and conferences.

• Access to innovative resources and programs.

• Information dissemination about COSEE’s mission and goals.

• Mentoring of new COSEE members and institutions.

• Participation in the COSEE community, including Claudia Benitez-Nelson.

Keep an eye out for some familiar names and faces from the COSEE community. Greetings from Rhode Island! We hope all of our COSEE colleagues on the east coast made it through this winter safely. The December 2014 issue of The Oceanography Society’s GlobaloceanScienceEducationWorkshop continues its mission of supporting ocean education and research. COSEE’s Diversity Program, which includes projects such as the Inclusion of Women in Marine Science, is a key component of the Global Ocean Science Education Workshop. COSEE sponsored a session during the conference, “Oceans and Climate Change: A Global and Human Systems Perspective.” The workshop featured over 120 presenters from consortia across the country, including representatives from the National Society for the Advancement of Chicanos and Native Americans in Science (SACNAS) and other organizations.

SACNAS, which is dedicated to the advancement of Chicanos and Native Americans in the sciences, has been an important partner of COSEE. COSEE sponsored a session during the conference, “Oceans and Climate Change: A Global and Human Systems Perspective.” The workshop featured over 120 presenters from consortia across the country, including representatives from the National Society for the Advancement of Chicanos and Native Americans in Science (SACNAS) and other organizations.
